nFolks
DATA SOLUTIONS

We Specialize in DataStage Upgrades

Convert your Server jobs to Parallel (S2P)
Convert your Parallel jobs to Parallel (P2P)
Upgrade from Legacy DataStage to DataStage NextGen

DataStage upgrade done, right!

We support end-to-end modernization, which includes Server to Parallel conversions, Parallel to Parallel conversions, and the creation of all associated components required for the code to run on CP4D.

DataStage upgrade faster!

nFolks partners extensively with IBM Expert Labs. Our products and services automates, accelerates, validates the upgrade and mitigates any risks.

The nFolks Mission

We are committed to deliver customer success with deep expertise and innovative minds.

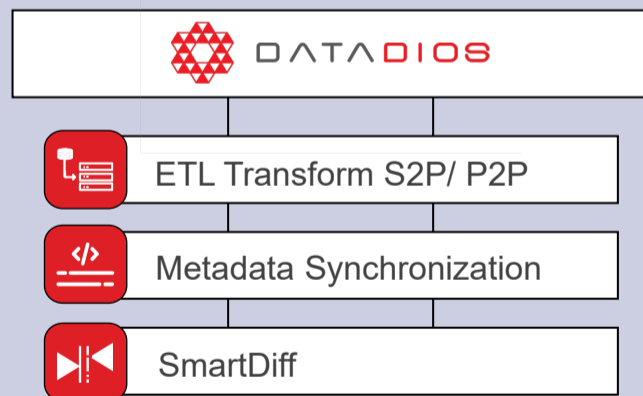

nFolks is Trusted by IBM Expert Labs! We get it done!

ETL Upgrade or Migration Options

- Migrate from legacy InfoSphere Information Server to IBM Cloud Pak for Data.

- Move from your On-Premise environment to a fully functional Cloud-native solution.

- Remediate your ETL as part of your overall modernization strategy involving migrating to a data warehouse or a data lake service in the cloud.

nFolks DataDios Software - Leveraged by IBM Expert Labs

ETL Transform S2P/ P2P
